MOCOAT FIBREGLASS BUILDINGS FOR SECONDARY CONTAINMENT

Fibreglass is virtually maintenance free.

Our buildings are ideal for safe storage of combustible products and/or oxygenated fuels.

Their pre-engineered design makes these shelters easy to assemble onto custom containment floors.

Each building comes equipped with a chemical resistant liner and non-slip grating to catch any spills and easy clean-up

A variety of other options are available including windows, shelving and vents

6224 – 29 Street S.E. · Calgary, Alberta · T2C 1W3
